

Persistent Discusses Peace Problems at Private Conference with Lloyd George and Balfour

EXCHANGE IDEAS ON REPARATION

Peace Conference Committee to Present New Principles.

Sections of League Constitution Adopted.

Alliances not Affected by Laws of World Society.

(Continued from First Page.)

members of the society of nations committee a better opportunity to hasten their work. It is probable that this system will make it possible to get the society of nations plan out of committee and before the peace conference within the ten days remaining of President Wilson's stay in France.

The smaller nations are beginning to show a disposition to revolt against any plan that does not recognize their full equality in a society of nations with greater powers. Thus, a situation similar to that at the second peace conference at the Hague, at which the plans of the Rhine River, an American delegate for a supreme court of nations, was frustrated, threatens to develop. It is hoped that the experts, profiting from the experience of the Hague conference, will find a way to secure the adherence of the smaller states to the plan, which is being perfected rapidly.

George Nicol Barnes, British labor delegate to the Peace Conference, and M. Colliard, French Minister of Labor, were elected vice-presidents of the Peace Conference committee on international labor at its meeting Tuesday. The committee agreed to adopt as a basis for discussion the British proposal for the establishment of a permanent international labor organization to deal with international labor questions.

ITALY'S CLAIMS.
The Italian delegation has agreed upon a memorandum which it will present to the Peace Conference, embodying the Italian views regarding the disposition of the Adriatic states formerly belonging to Austria. This memorandum will be made public after representatives of the Jugo-Slavs are heard by the supreme council, which was expected to be this afternoon or tomorrow.

The Jugo-Slavs have likewise prepared a memorandum containing six alternative plans for settling differences with Italy. According to the first plan, Jugo-Slavia would obtain the entire territory east of the Isonzo River, including Trieste, Latis, and the whole of Dalmatia. In the succeeding five plans, the claims are gradually scaled down, the final one asking only for the eastern part of the Italian Peninsula, Fiume and Dalmatia, minus Zara.

M. Trumbitch, the Jugo-Slav Foreign Minister, and Dr. Venich, the Jugo-Slav Minister of Finance, will deliver addresses before the commission of the great powers in support of the views contained in the memorandum.

The Italian delegation has decided not to enter a discussion with the Jugo-Slavs as yet at present, but to set forth the Italian viewpoint to their colleagues of the great powers, leaving the latter to judge between the conflicting claims.

DISCUSS REPARATIONS.
The Peace Conference Committee on Reparations today exchanged views regarding the principles covering "reparations for damages caused by the enemy and based upon memoranda which will be presented by the delegates of the countries affected."

The memoranda will be discussed at the next meeting of the committee on February 6, at which the French Minister of Finance, presided at today's meeting.

President Wilson had a conference during the forenoon with Premier Lloyd George and A. J. Balfour, the British Foreign Secretary. The President and the British statesmen were together for some time.

STUDIES PROBLEMS.
After his conference with the British leaders and prior to the meeting of the Supreme Council, this afternoon, the President devoted the time to a private study of the problems upon which he is engaged.

The preamble and two articles of the constitution of the society of nations were, provisionally agreed upon last night by the Committee of the Peace Conference appointed to deal with that subject. It was officially announced today that factory progress was made with other parts of the task. The question of adding representatives of other powers to the commission, it was added, is being discussed.

Alliances between the various nations will not be affected by the existence of the society of nations now in process of formation. Arthur J. Balfour, British Foreign Secretary, told newspaper correspondents here today. He was asked the direct question as to whether formation of the world society would involve the abrogation of alliances.

PERMITS ALLIANCES.
The constitution of the League of Nations, responded the Foreign Secretary, will involve no modification of the treaties of alliance previously concluded.

"As to the question whether special coalitions of two or three peoples could be formed aside from the league," Mr. Balfour added, "the question alone can decide."

Military intervention in Russia on a large scale is not to be thought of, declared Arthur J. Balfour, British Foreign Secretary, in an interview last night. The great powers were doing everything they considered could be done, however, he said, in dealing with what he characterized as "a most disquieting situation."

As to the general work of the Peace Conference, the Foreign Secretary declared all possible haste was being made to settle upon the peace terms. He was led to this statement by question of one of the interviewers, who said:

"There is much talk in the Peace Conference about various problems, such as the society of nations. Do you not think your task is, before everything else, to impose peace conditions upon Germany?"

THE REAL TASK.
After the moment's reflection Secretary Balfour replied:

"One can evidently criticize with

WANTS 400,000 YANKEES AT RHINE.

[ATLANTIC CABLE—EXCLUSIVE DISPATCH.]

PARIS, Feb. 5.—An American force of 400,000 men has been requested by Marshal Foch as part of the Allied army guarding the Rhine. This force will be required to remain on duty till the peace treaty is accepted by Germany and signed. Information obtained from reliable sources stated that Marshal Foch has urged that he be given an Allied army of 1,500,000 men to keep the watch along the Rhine until all war matters are settled.

It is understood France is expected to furnish twice as many men as America; Britain will furnish 200,000, and Belgium 100,000. The smaller number assigned to Great Britain, as compared with America's contingent, is reported due to the necessity for Britain to keep mobilized armies in other sections of the world.

Marshal Foch is reported to have assured the supreme Allied council that the maintenance of this vast army is necessary to absolutely forestall any attempt by Germany to evade consequences of the war or to refuse to sign Allied peace terms. The marshal contends that German territory along the Rhine at present occupied by Allied troops is mortgaged to guarantee payment by Germany of reparation for damages. The peace to which the world works army of occupation is at Coblenz.

Under limit the methods of work have been adopted, but rather than answer criticism, I would rather tell you that the fact that the problem of the society of nations has been taken up before that of peace, and that the settlement of our accounts with the enemy will only come afterward. The mechanism of the commissions we have instituted permits the concurrent study of several questions.

"Let me assure you," he reassured. The delegates to the Peace Conference have no intention of employing dilatory methods. They are using all their energy and skill to attain as soon as possible the peace to which the world works army aspires. That is their one aim, their sole ambition."

BAKER'S RECORDS TO BE USED IN INQUIRY.

WAR DEPARTMENT DATA ON REDS AVAILABLE TO SENATE COMMITTEE.

[BY A. P. NIGHT WIRE.]
WASHINGTON, Feb. 5.—Major E. L. Lewis, of the Senate Committee on Intelligence, today received from the War Department a report of the committee's inquiry into German propaganda.

The report, which is being conducted by the committee's subcommittee on German propaganda, is being conducted by the committee's subcommittee on German propaganda, is being conducted by the committee's subcommittee on German propaganda.

Major Lewis conferred today with Secretary Baker and it was understood that the records of the military intelligence bureau dealing with radical movements in this country, which might be useful to the committee, would be made available.

Present plans are to begin the inquiry not later than Friday, as yet no witnesses have been summoned. It was said that a former government official who has been involved in radical propaganda probably would be called, but his name was not disclosed.

The chairman of the investigating committee said he would endeavor to submit a report of the committee's inquiry into German propaganda and German propaganda separately, but that any hope of obtaining legislation dealing with the subject during the present session of Congress has been abandoned.

RELIEF FUND \$166,000.

[BY A. P. NIGHT WIRE.]
SAN FRANCISCO, Feb. 5.—Officials in charge of the American relief committee which is conducting a campaign for the relief of Armenia and Syria, announced tonight that mail subscriptions received from Northern and Central California and Nevada totaled \$166,000. The district's quota of \$150,000 was being made to settle upon the peace terms. He was led to this statement by question of one of the interviewers, who said:

"There is much talk in the Peace Conference about various problems, such as the society of nations. Do you not think your task is, before everything else, to impose peace conditions upon Germany?"

SAYS PACKERS RULED HOOVER.

Lasater Claims Policies Dictated by "Big Five."

Asserts Influence Changed Views of Administrator.

Letters Show President Favored Inquiry.

[BY A. P. NIGHT WIRE.]

WASHINGTON, Feb. 5.—Edward C. Lasater, of the National Livestock Association, Executive Committee charged before the House Interstate Commerce Committee today that the policies of the Food Administration were determined by the five big packing concerns and executed by employees of the packers serving the government for \$1 a year. Mr. Lasater, formerly chief of the administration's livestock and meat division. This was his third day on the stand at hearings on legislation for government regulation of the packing industry.

Before the Senate Agriculture Committee letters were read disclosing that President Wilson last February declined, after a Presidential inquiry, to interfere with the Federal Trade Commission's investigation of the packing industry. The President had been appealed to by officials of the big packing companies who asserted the commission was not conducting a fair inquiry.

Testifying before the House committee, Mr. Lasater said that when Herbert C. Hoover first was appointed Food Administrator he had told the witness he would not take a single packer to "sit at his council table because they had a reputation that stunk to heaven."

"But such influence was brought to bear on him," said the witness, "that he chose to disregard their odor. Within three weeks he had arranged to have the packers take the charge of the meat end of the industry."

SPECIFICS INDIVIDUALS.

J. P. Cotton, described by the witness as "a packer lawyer from New York," was appointed head of the meat division, Mr. Lasater said, and Harry A. Wheeler, "a packer banker," was appointed head of the livestock division. Mr. Lasater declared that in addition \$1 a year men in the packers' employ were appointed to various positions in many departments and nothing was done which was not known to the packers by the time it was done.

Henry Veeder, counsel for Swift & Co., today testified before the Senate committee. He read letters from the International Custom Union Association, at the opening session today of its thirty-ninth convention in the Hotel Commodore, in which the association's members urged the man we must fit today is not the same fellow physically for whom we made clothes before this war began."

He said that the International Custom Union Association, at the opening session today of its thirty-ninth convention in the Hotel Commodore, in which the association's members urged the man we must fit today is not the same fellow physically for whom we made clothes before this war began."

DEFINITE INFORMATION. ALL YANKEE BOYS ASK.

SUSPENSE IS WHAT'S WORRYING 'EM, BUT THEY'RE STICKERS WITHAL.

[ATLANTIC CABLE—EXCLUSIVE DISPATCH.]

COBLENZ, Feb. 4 (via Paris, Feb. 5).—Wide inquiry among the men of the American army of occupation as to the one thing the soldiers want the most, and the biggest thing the war department, commander-in-chief or anyone else could do for them brings the same reply in every instance. On this one point the head of the unit and the lowest private are in accord. Their language may differ here and there, but this, in plain terms, is what the soldier wants:

"Give us something definite about going home. If it is settled, this division is going to stay here until the final peace agreement is signed, give us that fact. Then we will know where we are."

"If we are here until June or later, let us know now. If on the other hand, the regiment is going to be replaced here and sent back, then give us the best estimate possible when we return. If nothing is decided concerning our immediate future, make that known with some sort of statement concerning the time when the real news may be expected."

The basis of all this is that every unit now hears every few days a rumor concerning the length of its stay. In the combat divisions that won the right to invade Germany, the rumor is that the division sent across the Rhine, every man has his own opinion about going home, and many discuss the possibilities. But there isn't a man here that would consider asking to quit the job if those in command think it necessary to stick.

If the powers that be conclude it is essential to hold their veterans here until peace is sewed up hard and fast, the soldiers' ancient prerogative to grumble will be exercised on the surface, but the morale of every outfit will hold up to a considerable period before the last minute of the long watch. But these constant rumors don't help much.

Plans are made for the division's participation in the Inter-Allied athletic championships in June. Hill Jones, secretary of the division, is ready to stay through the spring. But an officer has been in Paris and returns with smiling confidence that the outfit will be on the sea in the middle of March. He is willing to back his information with a substantial wager.

Then what is Bill Jones to think? He is a good soldier. All he asks is that the man who can shall tell him in exact terms, he pleads. Bill says, anything better than official silence, all messed up with a lot of gossip.

MANDATORIES PLAN OF WORLD LEAGUE SCORED.

EXECUTIVE, LEGISLATIVE AND JUDICIAL BRANCHES NEEDED, SAYS TAFT.

(BY A. P. NIGHT WIRE.)

NEW YORK, Feb. 5.—Prediction that the plan of mandatories proposed at the Peace Conference for the society of Nations will prove unsatisfactory, was made by William H. Taft, president of the League to Enforce Peace, at the opening here today of the Atlantic Congress for a League of Nations.

Asserting that, to be effective, a league of nations must have executive, legislative and judicial branches, Mr. Taft added:

"There should be a court of conciliation to consider nonjusticiable questions. While we may accept the plan of mandatories in the end, it will prove unsatisfactory, and some agencies of the league will have to be put in operation, governing with a sole regard for the benefits of the people in the countries taken under supervision. There should be an executive council to carry out the executive purposes of the league, made up of the states and which contribute to the forces used in making its decrees effective."

Mr. Taft said all nations should be represented in the league, and that the number of delegates allotted each should be fixed by charter members. Terminating his tangling alliances "futile," Mr. Taft said: "We are already in an entangling alliance, and the witness, European war there is no place for neutrals. We are sure to be drawn in, and we might as well face that fact."

Rainbridge Colby, Dr. Henry Van Dyke, Professor Graef, and others of Harvard and Gifford Pinchot were among those who addressed the conference today.

MEN'S CLOTHES TO BE LIKE GRANDPA'S.

[EXCLUSIVE DISPATCH.]

NEW YORK, Feb. 5.—The narrow Chester coat, with its high waist and close fitting lines, is gone. In fact, all masculine attire will soon resemble the clothes our grandfathers wore many years ago.

So decreed that arbiter of men's clothes, the International Custom Union Association, at the opening session today of its thirty-ninth convention in the Hotel Commodore, in which the association's members urged the man we must fit today is not the same fellow physically for whom we made clothes before this war began."

ROOSEVELT'S FUNERAL CAUSES HAVANA STRIKE.

[BY ATLANTIC CABLE AND A. P.]

HAVANA, Feb. 5.—Under orders of the typographical union a strike of linotypers, stereotypers, lithographers and machinists went into effect at 6 o'clock tonight in sympathy with job printers who struck when a number of employers declined to pay their men double time for work on the day of the funeral of Col. Roosevelt, a national holiday.

Pension Yourself.

The guaranteed life income fund written by the Connecticut General Life Insurance Company is the most modern protection yet devised for men and women. No medical examination required. If you die, your estate gets \$25,000. If you live long, you get much more. George L. Dickerson, 415 Security Bldg., Los Angeles.

YANKS MARCH IN VIENNA STREETS

Flour Train Guards Parade in Column of Fours.

Austrians Gaze in Wonder as Doughboys Pass.

Officers Impressed with Military Bearing.

[ATLANTIC CABLE—EXCLUSIVE DISPATCH.]

VIENNA, Feb. 2 (via Paris, Feb. 5).—Marching in column of fours, each man with a pistol at his hip, the American soldiers who came to Vienna yesterday, with the flour trains made a short tour of the main streets of the capital at a time in the afternoon when, thanks to a partial thaw of the ice and snow, Karmeliter street and the boulevards were again open to traffic.

As the parading doughboys emerged from Johannes street, where they had lined up for an inspection by Col. William B. Causey of the American food mission, they had to push through the throngs of Viennese who lined the passage to catch a glimpse of the first fighters of the American doughboys.

Austrian officers who were numerous among the onlookers watched with the eyes of connoisseurs when, at the command of their officers, the American doughboys formed in column of fours and swung smartly into the road with their faces wind-bitten, but their eyes alert and smiling back to the pretty children and girls along the curbs.

At the starting point and at frequent intervals on the route, a march a movie man, who accompanied the party on behalf of the Committee of Public Information, photographed the memorable sight for the picture theaters of the United States while other camera artists clicked the instruments at the procession from every possible angle.

As the parade returned to the neighborhood of the opera, windows made the city a scene of interest. The waterway improvements said, would furnish work for thousands of men.

He declared it to be "an absolute necessity that any soldier should be able to take care of himself in any emergency, and either fought or was killed in this war, he would be a man of honor."

country owes this to the soldiers who have risked their lives for the nation. Every soldier who has served in the war, while the railroad "naturally" increased because they were built as part of a program based on the construction of water traffic.

HIT MADE WITH GIRLS.

Only a few among our fellows can be called "doughboys" who are compelled to get along the best they can by an improvised mixture of scraps of German, French, Italian and English. The American soldiers seem prime with the girls of Vienna. One of them tells of a young Viennese actress who tried to induce him to send her back to Richmond, Va., where she used to live, but the arrangement broke down when, as proof of his good faith, she demanded four pounds of American sugar from her escort's ration.

Besides their ignorance of the language most of the doughboys are handicapped by lack of funds as they have not been paid for two months. That is among their principal complaints but they have been promised money on their return to France. They are even prepared to forego their pay, however, if from France they are sent soon to France to work on the front.

Three Hundred and Thirty-second Infantry, is gathering up its scattered battalions prior to going home.

PROFESSOR RETURN STATE. Although the men are provided with rations for ten days, the escort was instructed this morning to prepare for their return to France by

ELIMINATION OF RAIL WATER WARFARE URGED

DANIELS AND BAKER DEVELOPMENT AND IMPROVEMENT OF INLAND COURSE.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Feb. 5.—Elimination of the evils of competition between water and rail transportation, development of the nation's inland waterways and their full utilization for the nation's prosperity, were the chief topics of the National Rivers and Harbors Congress, which opened today at the National Hotel in Washington.

Indorsing the purposes of the act of March 3, 1899, which authorized the National Rivers and Harbors Commission to make a study of the waterways of the country, the National Rivers and Harbors Commission, which opened today at the National Hotel in Washington.

Secretary Daniels, director of the National Rivers and Harbors Commission, declared that the nation's waterways were "a vast storehouse of wealth, and that plans were being made for their development."

Los Angeles Daily Times. FEBRUARY 6, 1919. [PART I.] 3

HEAVIER TAX ON ANGELENO COUNTRY'S TAX BILL COMPLETED

Collector Carter Explains Provisions of New Revenue Measure.

Los Angeles incomes will be required to bear an increased burden under the provisions of the 1918-19 revenue bill, as compared with the tax imposed by the present law, according to information obtained at the office of Collector of Internal Revenue Carter.

The new bill, by which the Federal government plans to raise \$5,000,000,000 in 1919, calls for a straight income tax 12 per cent on incomes above \$4,000 annually, as compared with the 4 per cent tax on the first \$4,000, as provided by the present law. The exemptions to individuals remain unchanged, \$1,000 for single persons and \$2,000 for married persons, with an allowance of \$200 for each dependent child under 18 years. The new tax is based upon gross instead of net income.

Under the additional or super-tax provisions of the new bill, covering the entire net taxable income, there will be an increase of from 1 per cent, under the existing law, to 2 per cent on annual incomes over \$5,000 up to \$7,500. The present law does not apply this super-tax to incomes under \$5,000 a year, but the new bill applies it from \$5,000 up, in graduated form, until it reaches \$10,000, on incomes from \$10,000 to \$20,000 a year, and 65 per cent on those over \$20,000, to \$100,000.

A new feature of the super-tax provision of the bill is that in the case of a bona-fide sale of mine, oil or gas wells, where the principal value of the property has been demonstrated by the taxpayer, the tax shall not exceed 12 per cent of the selling price.

WAR SALARY EXEMPT. The exemption of compensation of persons in the military or naval forces of the United States for services abroad or at sea to an amount not in excess of \$3500 is changed so that all compensation for active service during the war is exempt. As the new bill affects corporations, a flat rate of 12 per cent, for the calendar year 1918 and thereafter an 8 per cent tax on net incomes of domestic corporations is to be imposed. The provisions for a penalty tax of an additional 4 per cent for failure to distribute income to stockholders, occupation ranged from 2 per cent, in the industrial class to 7 in the agricultural.

CHANGE OF RIO GRANDE MAKES TEXAN MEXICAN. RISE IN ERRATIC RIVER TAKES 400 ACRES OF FARM FROM AMERICAN SIDE.

(SPECIAL CORRESPONDENCE) HIDALGO (Tex.), Feb. 1.—One of the most remarkable cases of kidnapping ever known in the lower border region of Texas has come to the attention of the United States and Mexican authorities. Jose Cantu, a peaceful landowner and valley dweller, who has lived his life in Texas, was bodily transferred to Mexico by a recent rise in the Rio Grande. The river, which flows through his property on the Mexican side, has now changed its course and has taken 400 acres of his most productive land and many head of live stock.

Under the past decisions of the International Boundary Commission the center of the bed of the Rio Grande is the dividing line between the two countries. The shifting of the course of the erratic river places Mr. Cantu and much of his property on the Mexican side of the stream and, according to the Mexican authorities, he is now amenable to the laws and taxes of that country.

Upon Mr. Cantu's transplanted farm are a number of homes of employees, who were once American citizens until the river changed its course.

For several years the Rio Grande had been threatening to divert its bed to a new route. With each succeeding flood it cut a deeper and deeper channel until it has now practically abandoned its old bed and is flowing through the farm of Mr. Cantu with more than 400 acres of his cultivated land on the Mexican side.

To many matters more complicated the Mexican customs authorities are insisting that Mr. Cantu shall pay duty on his stock and other property that have found their way to that country by no consent on his part.

A. P. J. Robinson, consulting engineer of the International Boundary Commission, has just made a survey of the new course of the Rio Grande. He has found that the stream changed its bed at other places, but without involving the transfer of much real estate from one country to the other.

TAPS EARTH'S BOWELS ONLY TO FIND IT HOT. DEEP WELL DRILLER DE-CLARES HEAT AT 500 FEET WILL BOIL WATER.

(SPECIAL CORRESPONDENCE) DALLAS, Feb. 2.—John H. Williams of Clarkburg, W. Va., champion deep-hole digger of the world, may try his hand at exploring the bowels of the earth in Texas. He is now in Dallas arranging to put down a deep test hole at some point in the Central West Texas oil fields.

Mr. Williams probably knows more about what is far down beneath the earth's surface than any other man. He recently finished drilling the deepest hole in the world. It is situated in Harrison county, West Virginia, and was abandoned at a depth of 7288 feet. Before putting down that well he had drilled a hole in the Washington county, Pennsylvania, to a depth of more than 6000 feet.

The principal thing learned by Mr. Williams in his deep-well explorations is that the farther down the hole goes the hotter it gets. It would be possible to reach a point of something like two miles beneath the earth's crust, where it could be hot enough to melt metal or to boil water at a depth of 8000 feet, Mr. Williams said. At the depth of 7288 feet, the thermometer, which was let down to the bottom of the hole, recorded a temperature of 194 deg. Fahrenheit.

The interior of the earth is a molten mass—there is no doubt about it in Mr. Williams's opinion. Just what would happen if this seething furnace should be tapped, he does not venture to predict. It might cause a gigantic volcanic eruption. No scientific discoveries of much consequence were made by drilling these deep holes, according to Mr. Williams. Different results might be obtained in Texas, he thinks.

ITALIAN SHIP BRINGS 1776 WESTERN TROOPS. NEW YORK, Feb. 5.—With 1776 troops the Italian steamship Duca d'Aosta arrived here today, from Messina. On board were most of the Eighty-eighth Division from Minnesota, Iowa, Nebraska and North and South Dakota; and 122 casuals from various branches of the service.

what from those of the House, but remain the same as to 3 per cent, on freight and 8 per cent on passenger and sleeping car tickets.

The Senate surrendered to the House on its insurance programme and the whole new chapter on that subject stands abandoned. The House treatment of insurance matters in all parts of the bill being accepted.

The Senate plan for quarterly payment of taxes was accepted. The House had three payments two months apart.

Agreement has been reached on a considerable number of technical and administrative amendments offered by the Senate.

Tentatively the following Senate relief amendments were agreed to: Deductions allowed from income in cases of mines, oil, and gas wells. Depreciation deduction. Amortization of war industry plants deduction.

Falling inventories deduction. Tentative agreement was also reached as to the Senate amendment putting a tax of 100 per cent, on political campaign contributions in excess of \$500 and as to the Senate amendment providing for consolidated returns of income received by affiliated corporations, instead of letting each member of such a group report separately.

CHEER FOR THIRSTY IN PROCLAMATION OF DRYS. NO INVASION OF HOMES AND SEIZURE OF PRIVATE LIQUOR STOCKS PLANNED.

(EXCLUSIVE DISPATCH) WASHINGTON, Feb. 5.—Reassuring news for those thirsty souls who are storing up stocks of liquor for consumption after the country goes bone dry, was forthcoming today from the Anti-Saloon League. Homes will not be invaded and such stores seized.

The fear being expressed in some quarters that radical measures might be adopted to interfere unduly with the privacy of the home in connection with the enforcement of the national prohibition amendment will not be realized, said Wayne H. Wheeler, general counsel of the league. "We have always guarded this in every prohibition act, realizing that a man's home is his castle. There will be no effort to make the search and seizure law apply to bona-fide private residences, unless such private residences become a place of public resort for drinking or the sale or illegal distribution of liquor."

On the subject of beer, however, Mr. Wheeler held out no hope. "Two per cent, beer will not be sold under national prohibition," he said. "The Federal amendment prohibits intoxicating liquor as a beverage. Congress will define what is intoxicating liquors. The United States Supreme Court held, 226, U. S. 1912, that the legislative department may define the term to include even a nonintoxicating liquor if in its judgment it is necessary to make the prohibiting effective."

The State laws vary. Practically all of them prohibit the sale of liquor for consumption. More than one-half of 1 per cent, alcohol. Many prohibit all alcoholic liquors for beverage purposes.

The Federal government has adopted the standard that one-half of 1 per cent, of alcohol subjects the seller to payment of the liquor revenue tax on intoxicating liquor. There is no reason to believe Congress will adopt a lower standard than the Federal government is now using."

Mr. Wheeler said that William H. Taft, the appeal to the wets to abide by the dry law is characteristic of a great judge who believes in the dignity and majesty of the law.

"It is a splendid illustration of that type of true Americanism which plays the game fair in a democracy," he said. "It should be emulated by every patriotic citizen. There is only one consistent position for a law-abiding citizen now, as Judge Taft, the most influential opponent of prohibition, suggests, and that is to sustain the law until it is modified or repealed."

"The best reason for our opponents to prove it to be a failure, is to have it honestly enforced. We are ready to meet the test."

A Nation's Safety depends upon more than wealth or the power of its mighty guns. It rests in its robust children and in its strong, vigorous manhood.

MIDDLE WEST NEWS IN BRIEF.

(EXCLUSIVE DISPATCH.)

INDIANAPOLIS, Feb. 5.—The Indiana Senate this afternoon passed the woman suffrage bill giving women the right to vote for Presidential electors in 1920. The vote was 44 to 2. The bill has already passed the House and is now ready for Gov. Goodrich's signature.

A bill striking at the Bolsheviki and other anarchistic movements in this country was introduced in the House of Representatives today by Representative Deems, Democrat, of New Albany. The bill would make it unlawful for any person to carry a red or black flag in a parade. Penalties for violation of the proposed law are fixed at fines of not more than \$10, nor more than \$30, and imprisonment for not more than 30 days. The bill would also make it unlawful to exceed thirty days in jail sentences not to exceed thirty days.

ST. PAUL, Feb. 5.—The waiting list in St. Paul now the longest of the night before may get an "eye opener" as early as 5 a. m. and not be feared by those who are "going in." This applies to all wartime restrictions.

The audit made of the St. Paul City Railway Company's books reveals that the retention of the skip-stop plan for street cars will save the company \$25,000 a year, and that the car company during the last eleven months of last year lost \$60,000.

W. H. Taft, former President of the United States, will be the principal speaker at the open forum of the St. Paul Association next Wednesday.

MILWAUKEE, Feb. 5.—Several charges against the Milwaukee Electric Railway and Light Company, it was finally admitted, are the two companies are in effect, the same, but covering different territory. The City Attorney, however, protested against the city's acquisition of the suburban line properties.

The National League for Women's Suffrage has decided to continue its work indefinitely.

The Illinois being passed a dozen different bills, including one for the medical inspection placed under the health department.

The Washington Auto Company has voted to increase its capital from \$700,000 to \$1,000,000. S. S. Cramer was re-elected president.

Dr. John Dwight Freeman, former Wisconsin University football star, son of Prof. Freeman of the university, is dead of pneumonia at Poplarville, Miss.

The erection of a film exchange to cost \$170,000 at Jefferson and Michigan streets was projected by a group of motion-picture men.

Stephen Galovich, aged 56, whose head was split open with a hammer by his son Mike, may recover. The son says he did it for fun, and is being held as a nut.

Ralph C. Kennan, arrested in Madison for asking the Governor for \$200,000,000 at the point of a gun, is thought to have become insane as the result of an injury when he was a Milwaukee football star. He is a nephew of K. K. Kennan.

The Association of Commerce re-elected A. T. Vanecko president, and the old directors.

MINNEAPOLIS, Feb. 5.—Mayor Meyers today closed four of the prominent downtown hotels following convictions in court on various charges. The hotels closed were the Revere Hotel, 218 Second avenue South; the Hotel DuSable, 331 Marquette avenue; the Hotel DuSable, 116 Sixth street, South, and the Belvidere Hotel, 126 Fifth street, South.

Although the safety commission yesterday rescinded all of its wartime orders, the closing of saloons and restrictions on cafes, poolrooms and dance halls, Police Chief Walker announced, will remain in effect as usual.

The price of eggs dropped 4 cents here today.

Charles M. Loring today offered the city a fund, giving an annual income of \$25,000, if the city would place the fund on the city's "memorial drive."

Fred Fulton, well-known local heavyweight fighter, who has been making his home on the Coast lately, today was barred from an indefinite period from boxing in Minnesota because of his recent statements that his fight with Dempsey was "fixed." The action was taken by the State Boxing Commission.

KANSAS CITY, Feb. 5.—Officials of the two telephone companies intimidated to business men that if the proposed merger was sanctioned the new rate on business telephones would be \$8 for single lines, unlimited service, with lower rates for small business houses and \$3.50 for unlimited service in residences.

The Merchants' Association took up downtown traffic congestion at a meeting today and appointed a committee. Two special traffic officers were hired to direct the police during the meeting.

John R. Leighty has been appointed chief of the movement to raise \$200,000 here for Armenians and Belgians.

DES MOINES, Feb. 5.—Miss Eliza Sweet, well-known club woman and leader in Red Cross work, dropped dead here today while in the Red Cross work.

The Senate today passed the Red Flag Bill forbidding the display in the State of the red flag.

Michael Levy and S. D. Baril, arrested two weeks ago for offering a \$1000 bribe to an army officer to secure a contract for the State Highway Commission, it was announced here today. The commission awarded contracts for more than one million dollars worth of paving and other work will start at once on eight different projects. Preference will be given by contractors to returned fighters and several thousand men will be employed on the highway work.

JOBS FOR SOLDIERS.

PORTLAND (Ore.) Feb. 5.—Road construction camps for discharged soldiers only will be started in Oregon within a few days by the State Highway Commission, it was announced here today. The commission awarded contracts for more than one million dollars worth of paving and other work will start at once on eight different projects. Preference will be given by contractors to returned fighters and several thousand men will be employed on the highway work.

The proposed unification of terminal operations and the elimination of repair facilities at interchange points will result in a saving of millions of dollars in the elimination of unnecessary equipment and personnel, according to the annual report of the Interstate Commerce Commission.

W. F. Bush, Southwestern Railway Co., president of the United States Railway Association, made public the following statement:

RAILROADS' RESOLUTIONS

[BY A. F. DAY WEEKLY]

CHICAGO, Feb. 5.—The National Association of Railroad Jobbers' Association members are said to have adopted resolutions today against government control of the railroads.

The jobbers resolved that the railroads be placed under private ownership under nationalization. The jobbers resolved that the railroads should permit public control of operation, much as is now, and the pooling

THE NEW SOCIETY.
Mr. and Mrs. Eugene O. McLaughlin are giving a happy welcome to their son, Ensign Edward H. McLaughlin, and his bride (who was Miss Edith Young of San Francisco). The young couple arrived yesterday in Los Angeles to make their home, immediately after Ensign McLaughlin received his discharge, which came much sooner than he had anticipated. At present they are residing at the home of his parents at 3409 South Figueroa street. Miss Cecile Brooke and Lieut. John Brooke, who were guests of Ensign McLaughlin and his bride, returned yesterday to their home in San Francisco.

Mrs. Dockweiler Convalescing.
It will be gratifying news to Mrs. Dockweiler's friends to hear that she is convalescing and able to sit up in her room after a relapse with influenza. Her physician thinks she will be able to go out of the house next week. She had a severe attack at first, got up soon, and was back in bed the last time three weeks.

For Mrs. Roberts.
To welcome Mrs. George D. Roberts of San Francisco, formerly of this city, Mr. and Mrs. W. E. Corwin entertained at dinner last evening at the Alvarado Hotel. Mrs. Roberts has who will arrive here, Mrs. Vernon Goodwin, who was recently ill with influenza. At present she is in Coronado. Mrs. Roberts' son, Lieut. George Roberts has recovered from influenza and is now on his way to Chicago, where he will return to his business in San Francisco.

By Mrs. Bevis.
Mrs. F. H. Shields of Tulsa, Oklahoma, is a guest of her sister, Mrs. Daily Davis of this city and of her mother, Mrs. Dobbie of Santa Monica. Yesterday Mrs. Bevis assembled a few friends at lunch at the hotel, having among her guests Mrs. Carl Stillwell, William Hay, Mrs. Mills, Norman Sprague, and John McKnight.

For Visitors.
Mrs. Charles D. Goldthwaite of 1010 Park View avenue is to give a large afternoon tea for the week-end, as a welcome to her mother, Mrs. F. M. Gardner of Waco, Tex., who will arrive here Monday from San Francisco. Mr. Goldthwaite's mother, Mrs. J. G. Goldthwaite will share honors with Mrs. Gardner. Mrs. Goldthwaite has asked Mrs. Mark Lewis and Mrs. Herman Burkhardt to pour. Mrs. Gardner will also come from San Francisco with his wife and they will visit with their daughter two or three weeks.

Persons.
Mr. and Mrs. W. L. Hollingsworth are back from Coronado, where they went to see the aviation circus. Mrs. Frank Hall Moon, who went with them, is still in Coronado visiting her sister-in-law and her guest, Roy Fernandez of Fairfield, Cal. to spend the week-end at Catalina.

Miss Frances Browne, who has been with her brothers in San Francisco the past year is back in Los Angeles, the house guest of Miss Margaret Barber of 1214 Lake street.

Miss Mary Louise Schabrum returned home yesterday from San Francisco, and is a guest of friends the past month. Part of the time she was at Piedmont with friends.

THE NEW. "LOVE :: IN :: A :: HURRY." FLASHES.
IN STORES AND HOMES.
NOVELTIES, IDEAS AND PRACTICAL SUGGESTIONS.
By Olive Gray.
Up-to-date:
Very coarse straw, either flat or rough, used upon the new spring hats. This straw is sometimes combined with the finer weaves, and sometimes forms the brim, sometimes the crown and again is used with satin in either manner.
Brown and its sister shades, taupe, beige, tete de negre, mahogany and many other tints under various names either new or a revival of the old, form the most popular colors for street wear and for afternoon frocks.
One of the present fads is to have the shoes, hat, veil and gloves in a shade of brown to match, the suit or dress being of either black, navy or a darker tint of brown. The veil should, of course, correspond with the hat.
Brilliant and beautiful are the shades in silk for new dance frocks and for gowns for dressy wear in general. It seems as though feminine attire had determined to make up for time lost, during the war, by being more than ever fascinating.
Now is the time to buy:
The new weaves of wool challis and wool poplin for boudoir use and for the between seasons' attire, which helps to continue the wardrobe in freshness, when winter merges into spring.
New shirts for country club wear, which are even more fetching than in former seasons, although this did not seem possible. The plaids are especially chic, and when properly made are becoming, particularly to women of larger mold. Worn with the new Russian blouses, these skirts are charmingly trim and distinctive.
Sailors in the new spring straw hats are becoming a young face, and may be selected by those of more mature years, provided the brim and the crown are not too pronounced. But little trimming is used upon these hats, a band of ribbon being as a rule their only decoration.
Very "Tones!"
Oh, Olive Gray! You truly should come in to see the new aurtones, which have just arrived! came a voice over the telephone.
A brief explanation, and I thought I understood quite well the treat in store for me, literally in store for the news had come from that old reliable store where silks are silks.
Imagine my astonishment upon answering to a later call to hear a different voice, impatient friends.
"Oh, Olive Gray, you must not fail to visit the exhibit in the Alexander building to see those new or-tones!"
It so happened that I had not heard of either aurtones or or-tones, until that day—and I made both speakers spell the word. Then I ventured forth to see, why the world had gone or-tones—tones!
Silk Radiance.
Silk radiance was what I found in the new aurtones silks, invented by one of the oldest silk manufacturers in our country.
The idea, as set forth by the man, was based upon the poetic or philosophical idea that each form possesses an aura, or a light, more or less brilliant; and in printing the new fabled silk—in a weave far more rich in appearance than any fabled heretofore shown—that idea was put in effect, the figures seeming to diffuse light or radiance. A truly beautiful effect in silk was the result.
Photo-Radiance.
So then, naturally, I was interested in seeing the other "tones" of which I had simultaneously heard.
This I discovered to be a novel manner of using gold upon the photo-plates, causing the background of the pictures to fairly scintillate. Pictures of desert views actually seemed to be alive with that pulsing light, which one often observes in the desert, a marvelous effect—and well named from "oro"—gold, the tone given forth by the photographs, which seem more like etchings or engravings upon golden plates than like photographs.
As I went.
We were glancing over a table of china, wares bearing the always enticing placard, "As Is." It was truly a "broken lot," and I was thinking to myself: "However did they manage to break every article so completely?" when I heard a woman say: "Well, I should label that lot 'As Is!'" It was so appropriate a remark, owing to the fact that pitchers were without handles, pieces of plates were gone, huge nickers were taken out of the lot—and in ten minutes there was a genuine crippled form—that a hearty laugh went up.
Tiny, Tiny!
Never did I see such tiny, tiny combs as are those new ones for holding in place the new curls, either at the nape of the neck, or above the ears, or wherever. Some are jeweled and some are plain, and that they are so exactly shaped like the big hair combs, is what gives them the charm of something fairly-like.
She's Ma Honey!
The popularity of honey, established during our Hoovering on sugar, has developed several novel and pretty containers for this sweet. The new champagne glass honey holder consists of a square open dish set within a square plate.

BACK TO SPOTLIGHT.
By Grace Kingsley.
That Pauline Frederick, famous on both stage and screen, is to return to the stage next September was the announcement yesterday of the star herself, and the announcement was made with great enthusiasm. It is four years since Miss Frederick deserted the stage for the screen, she being one of the first big stars who had the courage to step from the sure legitimate into the at that time, somewhat doubtful medium of the films.
The play in which Miss Frederick will make her bow to her New York public is a new one by her husband, Willard Mack, entitled "Lady Tony," and has a California setting. In fact, the role Miss Frederick will play is that of a ranchette—a lady who is the owner of broad acres. Miss Frederick is already commencing to learn her role. A fine cast is to be assembled to support Miss Frederick, including, among others, Tom Wess.
"How do I feel about going back on the stage?" said Miss Frederick. "Well, to be perfectly frank with you, I have what is known as a sinking feeling every time I think of it. For myself, that's all. The play itself is wonderful." Miss Frederick never fails to do a little something for her clever husband—"But, as I haven't spoken a line for four years, except, of course, in benefits, I'm just wondering how my voice will sound to me. Moreover, I find a wee bit of an impediment in my memory when I try to learn lines. But, of course, that's only a matter of study."
Previous to presenting the new play in New York, Miss Frederick and Mr. Mack will visit Mr. Mack's parents in Canada.
Though Miss Frederick's contract with Goldwyn has still to be run, some arrangement is to be made whereby she will be able to spend a season on the stage in the autumn. Probably she will work for the screen in New York at the same time she is appearing on the stage.
Score One for Sarah.
It's all due to the fact that Sarah Padden plays all four roles in her playlet at the Orpheum, "The Eternal Barrier," that she got the very best dressing-room in the theater. Miss Padden and her other members of the bill landed in town the week before they were to go on. The matter of the arrangement of dressing-rooms was entered into. Miss Padden naturally wanted the star's dressing-room. So did the other ladies. Finally Miss Padden being to the stage manager over the phone: "I'm willing to take my whole company into my room with me." The stage manager hadn't yet acquainted himself with the nature of Miss Padden's act. "That's fair enough," he exclaimed. "You shall have the room."
Beach Picture Starts.
The next Rex Beach picture to be made at the Goldwyn studios will be called "The Scarlet Gardenia." Reginald Barker will direct; Owen Moore has the leading role, and Victor Sarno has an important part.

ARREST "BROTHER"

Woman Advertiser for Lost One, Gets Answer; Now Man is Held.

Sebastian A. Constant, of 837 Ceres avenue, was taken into custody by Postoffice Inspector Webster, yesterday, in the lobby of the post-office, charged with using the mails in a scheme to defraud. Constant was arraigned before United States Commissioner Long, and held in \$500 bond; the hearing was fixed for next Wednesday.

Some time ago, Petronila Delgado of Sonis, advertised in a local Mexican paper for information as to the whereabouts of Margarito M. Delgado, her brother, who left Mexico about nine years ago. Constant saw the advertisement. It is said, and claimed to be the long lost brother of the woman, wrote her a letter, asking that as he was sick she send him assistance immediately.

The woman communicated with Inspector Webster, and meanwhile addressed a letter to Constant, general delivery, when the accused went to the office yesterday morning, to get, it is said, an answer to his appeal for help. He was arrested. Constant says that some man whom he does not know got him to write the letter, and that he was paid 25 cents. He met the stranger on Main street, he said.

MULTIPLIED BY TEN.

Four Hundred Objections Made to Forty Counts of Indictment.

Perhaps the most voluminous demurrer ever filed in the local United States District Court, was received yesterday by United States District Attorney O'Connor, in the case of Charles L. Williams, the former San Diego banker, who was indicted recently by the Federal grand jury on the charge of embezzling and misappropriating private funds. Williams was former president of the First National Bank.

The demurrer contains 172 pages, and there are 400 objections to the forty counts in the indictment. The demurrer will be argued before United States District Judge Rhodes March 10, in case court is held in San Diego, on that date; otherwise, the arguments will be heard in Los Angeles.

TEN-TWENTY IS NOW DEMOCRATS'

Defunct Club's Balance is Added to Bourbon's Hope Chest.

No bets are being overlooked by the Democratic County District Committee. A few days ago the California Savings and Commercial Bank advertised among its unclaimed deposits, the sum of \$10.20 due the Iroquois Club. That organization was the predecessor of the present Democratic county organization and F. Ray Groves, secretary of the last named organization got busy.

Yesterday, Secretary Groves visited the Federal Building, and interviewed the Democratic office holders temporarily employed therein, as to their knowledge of the officers of the Iroquois Club. The information elicited was that at the time the Iroquois Club turned up its toes John T. Jones, was president, and S. M. Haskins, secretary-treasurer.

Messrs. Jones and Haskins were seen and as they were willing to file a disclaimer as to the funds, Secretary Groves, succeeded in getting the \$10.20 for the Bourbon's hope chest.

MAJ. COULSTON REACHES HOME.

hundreds Meet the Pasadena Banker at Train.

in Charge of Red Cross Work in France.

Big Job of Organization Now Over Here.

[LOCAL CORRESPONDENCE.]

PASADENA, Feb. 5.—Major John Coulston, president of the National Bank of Pasadena, who has been in charge of Red Cross work in France, arrived here at 5 o'clock this morning, and was met at the Pasadena station by a crowd of several hundred persons.

The big problem now confronting the American Red Cross is the care of the interests of the soldiers and sailors when they get back to the United States, said Major Coulston.

"So far as our own Red Cross is concerned, the work is virtually at an end. The job is to look after the boys when they return."

Major Coulston sailed from New York on Jan. 15, 1918, starting on a tour of the Red Cross work in France. He was promoted rapidly, and had supervision over all of the Red Cross work in France. He was in France for over a year, and has been in France for over a year.

Major Coulston is a banker by profession, and has been in the banking business for over 20 years. He is a member of the American Bankers' Association, and has been in the banking business for over 20 years.

Major Coulston is a banker by profession, and has been in the banking business for over 20 years. He is a member of the American Bankers' Association, and has been in the banking business for over 20 years.

ROBBERS LEAPS FROM WINDOW.

Caught in Closet by Boys, He Shoots Way to Freedom.

Wilshire District Again Scene of Burglar's Activities.

Dinner-Hour Bandit Still Baffles the Police.

Caught in a closet on the second floor of a house in the fashionable Wilshire district, a man believed to be the "dinner burglar," whose depredations have caused Chief of Police Butler to place extra guards in that part of the city, last night shot his way to freedom after three high school students had him cornered and pluckily attempted to arrest him.

Cameron Wright, 18-year-old son of Robert Wright, owner of the Mayberry Garage, accompanied by two of his chums, Charles Newman and Darrell Silva, of 525 North Serrano street, were returning to Wright's home at 213 South Gramercy place and on entering the house saw that the lower floor had been ransacked, with table cloths, napkins, dinner service strewn about and book cases overturned. At the same time they heard someone walking upstairs.

Without thinking of danger, the boys ran up the stairs to the second floor, and flashing on the lights saw the top of the house was in the same condition as the lower floor. Then they heard a sneeze in a closet, and the same time a door suddenly opened, and an arm shot out holding a long-barreled revolver. The boys saw a flash as the weapon exploded, and a bullet passing between Wright's and Newman's heads. Jumping behind the door, one of the youths made for the telephone and called the police at Central Station.

While he was telephoning the burglar ran from the closet and jumped from the second story window to the ground, as Harold Wilson, of 319 North Oxford was passing, hearing the shot and seeing the man leap, gave chase. The burglar, opened fire as he ran, but the boys kept up a hail of bullets until the man outdistanced his pursuers at Fourth street and Wilson place. When Detectives Gammah, Hickok, Cline and Burgess arrived on the scene all trace of the bandit was lost.

The youths were able, however, to give a good description of the man. They said that he was five and a half feet tall, about 140 pounds in weight, wore a dark brown suit and a white shirt. He had a white handkerchief in his pocket, and they could identify him.

The only article reported missing from the house last night was a solid watch belonging to Wright, which although it is believed that he would find it, further survey is made. It will be found that the burglar secured considerable loot.

NEW OIL WELL IN SOUTH WHITTIER.

Union Oil Opens Gusher on Mayberry Lease at Depth of 4600 Feet.

[EXCLUSIVE DISPATCH.]

WHITTIER, Feb. 5.—The Union Oil Company today brought in a gusher in test well No. 2 on the Mayberry lease, located about three miles south of Whittier and in a heretofore unproven field. The company had been drilling for the past two years and the oil-bearing sands were struck at a depth of 4600 feet. Tested, the oil shows 32 gravity. The nearest oil well from this property is about three miles.

The opening of the well on the Mayberry lease is regarded here as an extremely important development for this section. Residents of South Whittier, a few nights ago, formed a leasing organization and it is expected that the district will soon become the center for much drilling activity.

ALLEGES DESERTION.

Mrs. Mitchell of Ontario Sues for Separate Maintenance.

[LOCAL CORRESPONDENCE.]

ONTARIO, Feb. 5.—Mrs. Edna Mitchell Armstrong, prominent Ontario club woman and wife of former City Attorney Archie D. Mitchell, recently released from the naval aviation branch of the service, yesterday filed suit in the Superior Court, asking separate maintenance for herself and their two children, Delwood, aged 5, and Eleanor, age 3, in the amount of \$1000 a month.

In her suit, Mrs. Mitchell reports that she is wealthy in her own name, and declares that she has been forced to work in a local factory for the past several months, earning \$50 a month and "taking care of all extraordinary expenses," according to an agreement following the separation.

If in doubt, go to Arrowhead.—(Advertisement.)

NORTHERN RAIN STORM HAS RUN ITS COURSE.

[BY A. F. NIGHT WIRE.]

SAN FRANCISCO, Feb. 5.—The light rainstorm that has prevailed in portions of California in the last few days is nearly over, and no immediate prospect for more rain is seen, according to the United States Weather Bureau here. The rains have been of great value to crops, but more must come in the near future to make up the deficiency of rain in the State. Snow that has fallen in the mountains promises to fill the power and other reservoirs.

Last night Oroville received 0.40 of an inch of rain, San Francisco 0.14, Eureka 0.22, San Francisco 0.14, Stockton 0.04, Rockland 0.08, Oroville 0.16, and Chico 0.02. No rain fell in Southern California. Frost appeared at some points, but did no material damage, the bureau said.

The Steam Caves at Arrowhead have been tried, the gashed soldiers and found 100 per cent. efficient.—(Advertisement.)

Go to "Hotel del Coronado" and see most wonderful flying.—(Advertisement.)

ANTARIAN AT REST.

[LOCAL CORRESPONDENCE.]

ONTARIO, Feb. 5.—The funeral of Patrick Henry O'Neill, pioneer Californian, who died Monday at his home, No. 205 West F street, was held this morning from St. George's Catholic Church, with the Rev. Father J. J. O'Neill officiating. Mr. O'Neill had made California his home for more than thirty-five years and resided in Ontario eleven years. He is survived by a widow, one daughter, Cella, and two sons, Frank and Hugh, the latter with the American Expeditionary Forces in France. Mr. O'Neill came to California from Middlesex, Vt., his birthplace. Burial today was in Bellevue Cemetery.

WANTS MARRIAGE ANNULLED.

[LOCAL CORRESPONDENCE.]

ONTARIO, Feb. 5.—Alleging that Mildred Marriot Roberts Burns neglected the formality of divorcing a former husband before she married him, Ensign Fred A. Burns, recently discharged from the United States Navy, today filed suit asking annulment of his marriage. Before her marriage, Miss Burns was known as Miss Mildred Roberts of Los Angeles.

It is worth a trip to "Coronado" to see the "birdmen" fly.—(Advertisement.)

HERMOSA BEACH FLEUES.

[LOCAL CORRESPONDENCE.]

HERMOSA BEACH, Feb. 5.—For the first time since the influenza epidemic made its appearance in this city there is not a single case of influenza today. The last quarantine sign was taken down by City Marshal Wright Gibson yesterday. The largest number of cases at any time was twenty-two.

PLAN TO BUILD HOMES.

[LOCAL CORRESPONDENCE.]

TORRANCE, Feb. 5.—To give an impetus to the building of new homes in this city and in Long Beach, which are greatly in need, the Long Beach Development Association has been formed. The association has already purchased two acres of ground at the corner of Pepper and Normandie streets, upon which they will immediately erect eight modern houses. The members of the company are L. J. Hunter, J. L. Luck, R. J. Gannon, Henry Kottler, C. A. Paxman, S. Rappaport and Hurum E. Reeve.

Teeth Cannot Last

If You Let That Film Remain

Why Brushed Teeth Discolor and Decay

Millions of people find that teeth brushed daily still discolor and decay. Tartar forms on them. And most people, soon or late, suffer pyorrhea.

Old methods of tooth brushing have proved sadly inadequate. Statistics show that tooth troubles have constantly increased.

Now dentists know the reason. It lies in a film—that slimy film which you feel on your teeth with your tongue. It clings and stays in certain places, particularly in crevices.

That is what discolors—not your teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. "Bacterial plaque" is the dental name for film. Those germs, with tartar, are the chief cause of pyorrhea. Thus most tooth troubles are now traced to that film.

The tooth brush used in the old days leaves much of this film intact. The ordinary dentifrice cannot dissolve it. Soapy tooth pastes even help it to cling.

So much of this film—the great tooth destroyer—has been left to do its damage. Nearly everybody has had teeth wrecked by it, despite the daily brushing.

Dental science has long sought a way to end that film. It has now evolved an efficient film combuster. Able authorities have proved this by many clinical tests. Now, Pepsodent like any tooth paste. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten—how they glisten—as the fixed film disappears.

Old methods have not ended film—you know that. See if this way does. Few things are more important.

Then decide for yourself what to do in the future. Hundreds of thousands are now making this test, and they do not return to the old ways. Nor will you. Cut out the coupon now.

Perfect Health Is Yours If the Blood Is Kept Pure

Almost Every Human Ailment Is Directly Traceable to Impurities in the Blood.

You cannot over-estimate the importance of keeping the blood free of impurities. When you realize that the heart is constantly pumping this vital fluid to all parts of the body, you can easily see that any impurity in the blood will cause serious complications.

Any slight disorder or impurity that creeps into the blood is a source of danger, for every vital organ of the body depends upon the blood supply to properly perform its functions.

Many painful and dangerous diseases are the direct result of a bad condition of the blood. Among the most serious are Rheumatism, with its torturing pains; Catarrh, often a forerunner of dread consumption; Scrofula, Eczema, Tetters, Erysipelas and other disfiguring skin diseases; Malaria, which makes the strongest men helpless, and many other diseases are the direct result of impure blood.

You can easily avoid all of these diseases, and rid the system of them, by the use of S. S. S., the wonderful blood remedy that has been in constant use for more than fifty years. S. S. S. cleanses the blood thoroughly, and rids every vestige of impurity. It is sold by druggists everywhere.

For valuable literature and medical advice absolutely free, write today to the Medical Dept., Swift Specific Company, 437 Swift Laboratory, Atlanta, Ga.

The New DERE MABLE Book

is now ready. Continuing the famous Love Letters of a Rookie, it is uproariously funny from first page to last. Uniform with "Dere Mable."

Auto-Intoxication EXPLAINED

BY SAMUEL HAMILTON, M.D.

A French physiologist described a "digestive tube with arrangements for locomotion and guidance." It is commonly said that "most people dig their graves with their teeth." The disastrous effects of constipation have always been well known. It is easily understood how serious are the troubles which are caused by stagnation of decayed matter in the large intestines—poison reabsorbed and taken into the circulation—this is called auto-intoxication. It is apparent, therefore, that the first necessity is to cleanse the intestines thoroughly.

The best method for cleansing the whole intestinal tract and urging the liver into activity is to take as much outdoor exercise as possible, drink hot water before meals, and take a pleasant laxative, vegetable pill occasionally. Such a one is made up of Malt, apple, leaves of aloe, root of jalap, made into a sugar-coated pill that gives tone to the bowels. This was first made and sold by druggists nearly fifty years ago, as Dr. Pierce's Pleasant Pellets. The cost is twenty-five cents. Such simple means will prevent auto-intoxication. People are realizing that the kidneys, just as do the bowels, need to be flushed occasionally. The kidneys are an eliminative organ, and are constantly working, separating the poisons from the blood. Uric acid backs up into the system, causing rheumatism, neuralgia, dropsy and many other serious disturbances.

This can be avoided by stimulating the kidneys to increased action, and because of its tonic effect on these organs I would advise any one to get Anker-Pur (double strength), which is to be had nowadays for sixty cents, at almost any drug store, and take it three times a day. Also drink hot water before meals.

**Opportunities in Long-term Bonds**

At present prices high-grade bonds offer an unusually attractive yield over a long period. We have prepared a special list of such securities maturing from 1929 to 1952. The yields range from 5.45% to more than 6%.

FOX IS GUILTY, JURY DECIDES.

Embezzler of Woman's Money Faces a Prison Term.

Secured Orange Grove Under Promise of Marriage.

Attorney Scores Defendant as a Life-Long Deceiver.

Ending one of the most remarkable of recent criminal trials in the Superior Court, a jury in Judge Craig's court yesterday found George A. Fox guilty of embezzlement after an hour's deliberation. At the same time a verdict of not guilty of larceny by trick and device was returned by the jury. The case has been going on before a crowded courtroom for ten days.

Fox was accused of having posed as a wealthy Oregon rancher and a man of considerable standing among the elite of New York and other eastern cities, to win the affections of Mrs. Anna G. Walters, and so defraud her of her \$15,000 orange grove near Anaheim. With the prospect of a whirlwind of pleasure along the wealthy, and the attraction of fine clothes, he won Mrs. Walters' promise of marriage after a three-day wooing. It was said. It was shown that he induced her to deed her ranch to him, and that the property was afterwards sold by Fox, who obtained a Long Beach apartment-house in exchange. The specific charge was that he defrauded her of \$15,000, he received in the trade, though more than \$50,000 was realized by the sale of the orange grove. Part of the total sum was said to have been paid for a tour of Western States by Fox and Mrs. Walters.

Fox, testifying in his own defense, said that practically all of the money he received was returned to Mrs. Walters at various times, and that she lost considerable on horse racing and in "seeing the sights." He admitted he was married at the time he proposed to Mrs. Walters. In the argument before the jury, Deputy District Attorney Clark and Pryke painted Fox as a life-long deceiver of women. More than seventy-witnesses were heard during the trial, among them the defendant and Mrs. Walters. Fully half of the witnesses were called by John J. Richardson, attorney for Fox. Fox will appear for sentence on Friday. He was sent to the County Jail, having been at liberty recently

RED CROSS ASKS FOR OLD PAPERS.

Salvage and Civilian Relief Departments to be Kept Busy.

A plea for the continued saving of old newspapers, to be donated to the salvage department of the American Red Cross, was made yesterday by Harford L. Billon, chairman of the Los Angeles chapter.

"Practically the entire expense connected with the work we are doing for our returned soldiers and seamen and their families can be met by money realized from old newspapers, if the people will only save them for us," said Mr. Billon.

It was announced that the salvage department and the department of civilian relief will occupy the chief attention of the local chapter during the next year.

on bail of \$1500 furnished by his attorney. The punishment for embezzlement is from one to ten years.

CALLS HIMSELF "GOAT."

Former Police Commissioner is a Two-Time Divorce Loser.

Sam W. Schenck, who was a Police Commissioner under former Mayor Harper, did not appear, yesterday in the divorce proceedings of Mrs. Eva L. Schenck, before Judge Wood, and she was granted a decree on the ground of desertion. Several letters Mr. Schenck wrote his wife, dated Chicago, were offered in evidence.

Addressing her as "My dear little wife," Mr. Schenck said: "I am going to write you unless I hear from you."

He also wrote Mrs. Schenck that his future conduct will be such "that you will be proud of your old goat."

The Schencks were married first in 1904. She obtained a divorce in 1914, and they remarried in this city June 24, 1915. On May 15, 1917, Mr. Schenck deserted her, she charged.

JUDGES FLAY "EXAMINER."

Attack on Wood is Branded Gratuitously False.

Superior Bench Issues Formal Signed Statement.

Exonerate Clubwomen of Part in Spite Work.

The following formal statement over their signatures was issued yesterday by the several Superior Court judges of Los Angeles county. Every one signed it except Judge Wood, subject of the statement:

In an issue of a few days ago the Los Angeles Examiner printed a story to the effect that Judge J. P. Wood is about to be transferred from the divorce department of the Superior Court. It was said that the action was determined upon at a meeting of the judges and that "Judge Wood is said to have consented to the change." It was also stated in the story that "Judge Wood was decided by his fellow judges to be temperamentally unfit for the work required in the divorce department," and that "influential members of several women's clubs are believed to have been instrumental in precipitating the action."

The story also contained a statement, attributed to some man who "refused to permit the use of his name," that "it is the general opinion of his (Judge Wood's) associates on the bench that he lacks the peculiar tact and knowledge of the feminine nature to make him a successful divorce judge."

The story in the Examiner was not merely misleading. It positively misstated the action of Judge Wood's associates and attributed to them sentiments which they do not entertain toward him. It has not been decided by the judges, and they do not entertain the view, that Judge Wood is temperamentally unfit for the work of the divorce department. No influential or other members of women's clubs have been instrumental in precipitating any action such as is referred to in the story. It is not the opinion of Judge Wood's associates on the bench that he lacks the peculiar tact and knowledge of the feminine nature to make him a successful divorce judge.

At the regular monthly meeting of the judges, held January 13, Judge Wood stated that the work of the divorce department had become burdensome to him and said that he might ask, in the near future, that he be relieved of it. This was the first mention of the subject in any meeting of the judges.

On January 31, at a meeting called for the purpose of approving the 1919 jury list, and for the transaction of other business, Judge Wood again voluntarily mentioned the burden cast upon him by the work of the divorce department. He asked that some other judge be given the work and that he be assigned to other duties. The judges discussed the question as to who should be assigned to the divorce work. No action was taken at the time, and none has yet been taken upon the question. If Judge Wood transferred from the divorce department, it will be because he has voluntarily requested the change.

February 5, 1919. (Signed)

LOUIS W. MYERS, JUDGE R. B. WILSON, CHARLES MONROE, SIDNEY N. REEVE, FRED H. TAPF, CHARLES S. CRAIG, LESLIE R. HEWITT, RUS AVERY, DANA R. WYLLER, JOHN M. YORK, CHARLES WELLSBORN, JAMES C. RIVER, L. H. VALENTINE, GRANT JACKSON, FREDERICK W. HOUSER, JOHN W. SHENK, FRANK R. WILLIS, PAUL J. MCCORMICK.

I was absent at the meeting referred to in the Examiner, and did not sign upon the assurance of my associates of the correctness of this statement. (Signed) GAVIN W. CHAIG.

SUIT IS DISMISSED.

Disagreement in One Juvenile Hall Case Brings Quick Action.

The suit of Albert Gault, 15 years old, against Dr. Muriel Campbell, Juvenile Hall physician, for \$50,000 damages for injuries alleged to have been received in being examined at Juvenile Hall, will not be tried.

A motion by her attorneys to dismiss the action, after a jury had disagreed in the suit of Laura Ellis, 16 years old, in which the same allegations were made, was granted by Judge Houser, yesterday.

A retrial of the Laura Ellis case will begin March 18.

Riverside Active to Procure Pan-American University Location.

(SPECIAL DISPATCH.) RIVERSIDE, Feb. 6.—An important step looking to the establishment in Southern California of a Pan-American University was taken here today, when the committee having the matter in hand decided to appoint a board of trustees consisting of twenty-one members. The proposed constitution of the institution was submitted and incorporation urged in order to get the project before the government and the Pan-American Committee at Washington.

SOLDIER MEETS DEATH IN AUTO ACCIDENT.

(SPECIAL DISPATCH.) SAN DIEGO, Feb. 6.—Edward L. Alvarado, private from Camp Kearny, was killed in an automobile accident while driving alone in a Ford to Los Angeles last night. Alvarado was found in the front seat of an overturned Ford this morning by a stage driver on the Cardiff bridge, seven miles beyond Delmar. Alvarado was attached to the Medical Corps.

Kin of Lord Roper Loses Mate.

Mrs. Evelyn Beverly Adams Roadway, who was yesterday granted a divorce from Harry E. Roadway, prominent Pasadena resident.

SOCIETY PAIR DIVORCED.

Mrs. Evelyn Beverly Roadway of Pasadena, formerly Miss Evelyn Beverly Adams and well known in society both in this city and Pasadena, was granted a divorce from Harry E. Roadway by Judge Craig yesterday on the ground of desertion.

Mrs. Roadway in her suit declared that her husband only remained at home three nights of each week and refused to eat any meals with her. She alleged that Mr. Roadway in December, 1912, notified all stores at which she traded to discontinue her credit, and that at the same time deserted her. Mr. Roadway, his wife alleged, did not return to their home for almost a year, and that after returning deserted her again in 1916.

San Gabriel Valley Drives 'Em Out with Warning not to Return.

(Continued from First Page.)

change, representing more than 1000 growers in thirteen associations, appointed a committee to handle the situation, and it is understood that this committee proceeded along the lines of stopping any outbreaks by means of court injunctions and armed deputies to protect the workers and the growers. This method was used two years ago in the case of a local outbreak and proved effective.

J. W. STILL, BUSY.

Despite their defeat at Charter Oak, the agitators kept up their work yesterday. Some time Tuesday night notices were placed on the Upland packing-house urging a strike of the pickers, and cards were distributed yesterday among the pickers at Ontario and at La Verge, a strike in order to make "more work for the returned soldiers." Heets are being planned by the I. W. W. to be held in various sections of the orange district, especially among the Mexicans. The packing-house management at Pomona and at La Verge have received typewritten demands for \$4 a day for pickers, and the growers and the growers' associations are being urged to stand away yesterday.

The situation is improving was shown yesterday at Monrovia and at Duarte. City Trustee Edward F. Spence of Monrovia said that

PIONEER WOMAN DIES.

Death Claims Widow of Early-Day Western Railroad Builder.

Mrs. Fannie King, 73 years old, of 1217 Second street, Santa Monica Beach, died, yesterday afternoon. She was the widow of the late Amos King, a pioneer western railroad contractor, who was rated as a millionaire at the time of his death in San Francisco several years ago. Mr. King had a contract for the construction of the Oregon and California Railroad through the State of Oregon and previously helped build the Central Pacific across Nevada. Mrs. King was a passenger on the first through train from Ogden to San Francisco following the opening of the Union Pacific and Central Pacific tracks at Promontory, Utah, in the latter '60s. She came to Santa Monica Beach six years ago for the benefit of her health and lived with Mrs. Hildreth, a niece.

Nations Motion Picture Camera Company; incorporators, William Parsons, Harry M. Ruby, J. E. Leonard, William La Plante, Crawford G. Logan; capital stock, \$10,000; subscribed, \$10,000.

FOUR ARE NOW IN SPOOK NET.

Alvandro and Mohr Yield Themselves in Court.

Attorney will Seek Release on Lowered Bail.

Indictments Charge Larceny and Extortion.

After avoiding the authorities for six days, Carlos de Alvandro, known as a Brazilian spirit medium, and G. B. Mohr an alleged broker, both indicted by the grand jury as the result of the recent investigation of so-called spooks in Los Angeles, surrendered themselves in Judge Craig's court yesterday. Mohr, who is accused of larceny of \$600 by the sale of bogus mining stock to John Schroeder, produced bonds for \$5000 and was released until his trial. In the same indictment, P. H. (Paddy) Kean and Alvandro were also accused of larceny by trick and device.

Alvandro appeared in Judge Craig's court with his attorney, C. L. Bell. The latter announced that he has obtained sureties for \$7500 for Alvandro, and he will try to have his bail reduced from \$15,000, as it now stands for three indictments. Falling in this, he will endeavor to obtain Alvandro's liberty by other legal means. With the surrender of Mohr and Alvandro all four persons indicted in the spook cases have been arrested.

Mrs. Jean Lounsbury, who is at liberty on \$2500 bonds, and Kean and Alvandro were accused in one indictment of extortion from Samuel I. Wilson, a bean grower of Santa Ana. This indictment is based on the alleged attempt to induce Mr. Wilson with Mrs. Lounsbury and Kean to sell a series of letters addressed, admittedly by Mrs. Lounsbury, to "Dear Sam." There are four counts against all three.

Another indictment accuses Kean, Alvandro and Mohr with larceny by trick and device in the sale of alleged fake mining stock to Mr. Schroeder.

The indictment charges Kean and Alvandro with larceny by trick and device. There are five counts as follows: That on June 5, 1918, they tricked Isaac (Levy) Smith, an old farmer, out of \$57; that on June 8, 1918, they again tricked Mr. Smith out of \$500; that on June 17, 1918, they took Thomas Katana, another farmer, out of \$160; that on July 12, they took another \$150 from Mr. Katana, and that on June 10 they tricked John Schroeder out of \$150.

SEEK MURDER CLEW IN SPIRIT MEDIUMS.

GRAND JURY TAKES UP INVESTIGATION OF THE FOGEL SLAYING CASE.

Investigation was begun yesterday by the grand jury of the alleged connection between the operations of certain spirit mediums in this city and the murder some time ago of Reuben Fogel, a wealthy broker. Several witnesses who appeared before the inquisitorial body in the spook case, it was said, have been recalled, and others who have knowledge of the circumstance that led up to the entangling of Mr. Fogel into an unoccupied house at 429 West Twenty-seventh street, will be heard.

Mrs. Lillian de Wolfe, so-called spirit medium, who says she predicted that the broker would meet with disaster, was closely questioned by members of the grand jury. It was said that she repeated to them the account she gave of having received a mysterious spirit message to warn Mr. Fogel. She said that on the night the broker was found in the house, clubbed to death, she called up Mr. Wood, who had a deal in Mr. Fogel's office, and said she feared for the broker.

Subsequently it was brought out that the house in which the broker was, was as headquarters, in 1917, for the Apostolic Spiritual Church of which P. H. (Paddy) Kean is head. This organization had moved to its present location on South Grand avenue prior to the Fogel slaying.

Kean informed Capt. Hunter, chief investigator for the District Attorney's office, that when he relinquished the house on West Twenty-seventh street, he retained only two keys, although one other key was in his possession. He said he was unable to explain where the other key went.

In July, Kean rented the same house for Mrs. Jean Lounsbury and Samuel I. Wilson, bean grower of Santa Ana, but gave it up about a month before the murder, which was on October 29.

THREAT OF FLU IS NO COURT EXCUSE.

SPIRITUALIST'S BAIL IS INCREASED BECAUSE HE SENT ONLY DOCTOR'S LETTER.

Because George Palmer, a spiritualist, felt he had influenza coming on and sent a doctor's certificate saying he was "threatened" with the disease, instead of showing up in the Police Court for trial on the charge of telling fortunes without a license, he was rearrested yesterday, brought to court, and had his bail increased from \$100 to \$1000, cash.

The matter was threatened out before Police Judge Chambers on a motion by City Prosecutor Widney and Assistant City Prosecutor Richards to have the \$100 bond bail forfeited on the grounds that Palmer failed to appear and that while his physician's certificate said he was threatened with influenza, the Palmer acted in good faith. The date for the hearing was set for February 17, at 10 o'clock in the morning, before a jury.

DAINTY BILLIE RHODES IN HOOP-LA; THE CIRCUS GIRL, COMING SUNDAY—KINEMA.

Woman's Complaint Brings Charge of Practicing Without License.

Charged with practicing clairvoyancy without a license, Harry Sheriff of 611 East Twelfth street was lodged in the City Jail last night by Officer Box of the city license bureau. According to the officer, he received a telephone message from Mrs. Eva B. Alken of 301 East Sixth street that Sheriff had attempted to defraud her of \$25 by claiming to be able to give her a remedy which would save her hundreds of dollars in investing her money in certain securities. Government agents are watching every move of the "reds," and are assisted by the local Sheriff's office and the police.

"TROJAN" COMES BACK.

One of the foremost war activities to be resumed at the University of Southern California will be the college paper, the Trojan, which will be issued with the beginning of the second semester next week. On account of war work and as a measure of conservation this paper was not issued during the first semester. Ray Haight will occupy the editorial chair and V. Perkins will be business manager.
